

Acquiring New Targets

Subtask 1

1. Once you have setup a route from your Kali machine to the Metasploitable VM via XP, use this route to scan the Metasploitable machine for open ports. You should submit screenshots showing the following

a) Successful port scanning from Kali

Kali IP: 192.168.1.112

XP IP: 192.168.1.109 / 192.168.2.3

Metasploitable IP: 192.168.2.5
